CALL FOR PAPERS

Workshop Title:

International Workshop on Convergence of Digital Media Art Works and Computer Technology

Call for papers

The Digital Media Art Works and Computer Technology workshop on Complex Networks Dynamic Behavior Mining at bringing together researchers and practitioners from different science communities working on areas related to complex networks. The workshop targets two types of contributions from prospective authors: Contributions dealing of theoretical tools and methods to solve practical problems as well as applications. Both contributions should stimulate interaction between theoreticians and practitioners.

Authors are encouraged to submit both theoretical and applied papers on their research in Computer Technology and Digital Media Art Works . Topics for the workshop include, but are not limited to:

5G Network
Image Processing
Computer Graphics
Modeling, Control and Simulation
Music and Movie Distribution
QoS and Security Support for Entertainment
3D TV for Entertainment
Computer Animation

Technology for Entertainment
Agent-based Entertainment
Interactive Television and Theatre
Massive Multiplayer Games
Mobile and Wireless Entertainment
Digital Interactive Storytelling
Pervasive Entertainment
Personalized and User-Adapted Television
Sport, News and Entertainment
Wearable Entertainment
Wireless and Mobile Gaming
Digital Entertainment and Sports
Digital Entertainment and Pleasure
Games for Special Audiences
Human Computation Games
Multimedia User Interfacer

Important Schedule
•Submission Deadline: Feb. 15, 2019
•Author Notification: Mar. 8, 2019
•Registration Due: Mar. 15, 2019
•Camera Ready Due: Mar. 22, 2019
•Conference Date: Apr. 24-26, 2019

General Co-Chairs:
Jingdong Liu,Zhongnan University of Economics and Law, China
